## **Relationships and Sex Education (2020)**

**The government has asked all schools to consult parents on their plans to deliver these areas within the primary curriculum. There are two separate parts: sex education and relationship education. They are both important in helping children to learn to form healthy relationships as they grow and mature. Although it is compulsory for schools to provide these lessons, parents have the right to withdraw children from the sex education lessons. The school will deal with this by informing parents well in advance of lessons taking place and seeking consent for children to participate.**

**The following pages will define the differences between the two parts and set out how the school deals with them. There are no new elements proposed, other than a greater emphasis on online safety, and this document simply formalises the same approach that the school has taken for the last five years.**

# Relationships Education

This helps children to understand the different kinds of relationships they may form and how to ensure that these remain healthy, positive and free from exploitation. We teach children to understand the similarities and differences between themselves and others, to respect themselves and to respect other people. We teach about healthy relationships - both in real life and online - in formal lessons, but constantly visit and revisit the themes when we deal with children falling out with one another, or when children may be teased or bullied. We also teach children about mental health and wellbeing, with techniques for remaining calm and mindful.

**This is a compulsory part of the curriculum.**

# Sex Education

This helps children to understand their bodies and the changes that begin to happen as they get older. We teach children about the changes that are occurring as they begin to reach puberty in Year 5 and about sexual reproduction in Year 6. These lessons are taught separately to different gender groups.

**Parents are informed in writing before the lessons take place and are offered the right to withdraw their children from these lessons.**

**The following pages set out our teaching plans: what we will teach, when and how.**

**We have split relationships Education into five areas. These are:**

- **Families and people who care for me**
- **Caring friendships**
- **Respectful relationships**
- **Online relationships**
- **Staying safe**
